

## Fishermen Ready For Opening of The Black Bass Season

**Plugs to Fly Tomorrow for  
First Time Since  
March 15th**

Reels have been oiled. Lines un-  
kninked. Boats calked. Motors

neral overhauled. In fact Glades fishermen have everything in readiness for the opening of the black bass season tomorrow. Therefore, Lake Okechobee has not been closed on black bass but a new law was interpreted by the attorney general this year to mean that the big lake should remain

Just to remind fishermen of the awful catch we are printing the limit on black bass. Regulations permit a catch of 12 black bass over 14 inches long in one day. There are a few fishermen in this section who will have some trouble in taking the limit—where are dozens of others who will be to knock off fishing before a day is over. They are not

New plugs will fly over various stretches of Lake Okechobee tomorrow morning bright and early, with motors—old ones tied up—putt-putt out into the Lake, bright and early. Much impetus has been given the opening of the season by the fishing contest, which have already been announced. Many valuable prizes have been announced by the Denton Club, and the prizes will be awarded in Pahokee, the Coburn Club, in Canal Point and the new store in Belle Glade.

Lakeville in all probability has a big business this summer. H. and Shuler in Lake Harbor are opening a new fisherman's rendezvous. New boats have been ordered and they are ready for business with the opening of the season at Moore Haven and several other places. At Moore Haven there are plenty of fishing spots and camps. Lake Trafford, near Immokalee, is coming in for its share of fish this summer and Blue Cypress

visited by some of those chaps  
Lake Okechobee who are al-  
ways looking for greener pastures.  
The consensus of opinion is that Lake  
Okechobee will furnish the best  
fishing in the entire section  
during the season.

## Protective Steps Necessary To Save

### Newell Offers Suggestions To Aid In Move

long and careful study overlaid, and its problem are those of an American fire-control system. The following measures would protect these ferns from destruction by fire: provision of more fire-fighting gear and equipment for the Lades Fire Control district; facilities are inadequate; a state law against hunting of alligators, snakes, and birds; fires have been started by hunters to burn o-

ing the water table or ac  
flooding the surface o  
land not in cultivation  
would reduce or remove the  
mability of the rich peaty  
and would protect this soil

THOMAS FOR SUPREME COURT

Friends of Judge Elwyn Thomas are interested in the election to the supreme court in the second primary election next Tuesday. Those who are interested in a South Florida man sitting on the supreme court bench have an opportunity to select Judge Thomas. It will be necessary to get out the vote on Tuesday—will you do your part?

Judge Thomas received the biggest majorities on May 3rd where he is best known.

A real Florida Cracker. Born in the south of Fort Pierce and educated in the Florida public schools and a Florida university. Practiced law at Fort Pierce for ten years, except for the time he served in the Army during the World War.

Appointed Circuit Judge in 1925 and re-nominated twice by the voters without opposition.

He has heard over 500 criminal cases as Circuit Judge and has been reversed in ONLY ONE criminal case.

He enjoys the confidence and affection of the people who know him best.

## AS OTHER EDITORS SEE IT

### AN UNNECESSARY PRIMARY

Because there was some talk of the death of Senator Fletcher and Trammell, that the state democratic committee would nominate their successors instead of submitting the matter to a primary, the legislature in 1937 passed a law requiring that a special primary be held when a vacancy occurred between the regular primary and the general election of any year.

That act was of doubtful necessity and it now boils up to attack the state for the cost of a special primary to nominate an attorney general. We could very well get along without it.

The office is almost-irresponsible for the public vote is not. For this one, to save a considerable expense, the state committee could very well be relied on to offer a suitable democratic nominee. As a matter of fact it is probably better qualified to make a choice for this particular office than the general public will be. The public will be regretted to candidates who nominate themselves for consideration while the committee could, and perhaps would, look around for better timber than those who press forward in November.

What will happen is that the governor will appoint an attorney general to serve until a successor is elected in November. In the meantime the state committee

will call a special primary; one of the free-for-all which every political lawyer in the state can enter, and probably will. It may take a second primary to run it off. The winner will then stand as the democratic nominee and when he is elected in November he will finish out the two years remaining of Judge Landis' term.

In the interval the attorney general's office will be for six months in the hands of the governor's appointee. During that time he will barely have learned his way around. Then he goes out to nominate their successors instead of submitting the matter to a primary, the legislature in 1937 passed a law requiring that a special primary be held when a vacancy occurred between the regular primary and the general election of any year.

That is a troublesome, expensive and inefficient manner of filling a public office which is almost-irresponsible for the public vote is not. For this one, to save a considerable expense, the state committee could very well be relied on to offer a suitable democratic nominee. As a matter of fact it is probably better qualified to make a choice for this particular office than the general public will be. The public will be regretted to candidates who nominate themselves for consideration while the committee could, and perhaps would, look around for better timber than those who press forward in November.

What will happen is that the governor will appoint an attorney general to serve until a successor is elected in November. In the meantime the state committee

## TOO LATE TO CLASSIFY

By Russell Kay

A few weeks ago I took time out to tell you something about Caverns State Park near Marianna and that little yarn got me in a peck of trouble, not because it wasn't a good story but because a lot of other sections have distinct and unique attractions that they feel should be "talked about."

Before the ink was dry on that Marianna column Dan Kelly of Fernandina was all over me like a cloud dust and saying that I had come up to Nassau county and a load of a sure-enough State Park.

A Dick Pope of Winter Haven reminds me that "Cypress Gardens" can furnish material for no less than a thousand columns and when will I be over.

"Shorty Davidson of Silver Springs calls my attention to the fact that during the recent press meeting I saw first hand the wonderful stories of the "eldest wonder" of the world" and why didn't I write about it?

Ernest F. Coe informs me that if I want to see a REAL park I'd better take a month or two off and let him show me. True, we have Glades National Park and then I'd have plenty to about.

If you really want to do your readers a favor" writes Trent Collins "You'll let 'em about Rains Park. I've seen that famous fall."

From McIntosh, Mrs. C. I. I threatens dire consequences if I don't drop what I'm doing and let her take a month or two off and let her show me. True, we have Glades National Park and then I'd have plenty to about.

Long interested in weather problems, Edgar Wall attracted national attention on one occasion when he was advising the navy to send several "battleships" to the Caribbean to bombard the approach to the straits, contending that such a move would serve to break them up and prevent destructive hurricanes. He also has proposed a similar move based on the idea that rain can make the drought periods by the use of heavy dynamic blasts.

Each time however, that I prepare to test the idea, Nature breaks down and provides a natural rain. Perhaps all that is necessary is to simply get Mr. Wall to make plans, and if this is so, the lower east coast would probably rejoice him with open arms at this time.

## FISHING TACKLE

Several Modern Up-To-The Minute Inflatables

## Rubber Boats

Value \$28.50 Each

## TO BE GIVEN AWAY!

Fine for fishing, duck hunting and swimming!

Can be carried in your car at all times!

Complete with pump, oars and handy carrying case!

Weight 15 lbs. complete with all equipment; will float 700 lbs.!

Packs into carrying case 14" x 12"!

Just ask for your free punch with each 50c purchase of fishing tackle. One boat given on each punch board of 250 punches.

First you join the contest with the usual \$1.00 purchase of fishing equipment as you always have and then for each purchase of tackle you make thereafter you will be entitled to a free punch on the boat!

The person entering the largest fish each week will be entitled to 10 free punches towards the boat.

Think of it, SEVERAL boats of this new government used type are to be given away absolutely free. In addition to our usual high grade prizes:

AND HERE ARE THE 3 GRAND PRIZES

1st PRIZE—Shakespeare Super Reel \$27.50  
Oxford Steel Rod 6.25  
Wesford 24-lb. test silk casting line 2.00  
\$35.75

2nd PRIZE—Shakespeare Criterion DeLuxe Reel \$ 6.00  
Challenge Steel Rod 1.00  
Merac 25-lb. test silk casting line 1.00  
\$12.00

3rd PRIZE—Falls City 16-inch galvanized tackle box \$7.00

Contest Opens May 21—Closes August 31st

## Rules and Regulations

(1) Contest opens May 21st and runs to August 31st, 1938.

(2) All entrants must reside in a town or city located not more than five miles from Lake Okechobee with the exception of Indian towns.

(3) A purchase of \$1.00 worth of fishing tackle or equipment entitles entry in the contest.

(4) Fish must be weighed in at the store not over 24 hours after being caught. Fish weight being considered official.

(5) It is understood that any fish entered in contest may become the property of the store and may not be entered in any other contest or national contest.

(6) Fish must be taken from water not over 25 miles from Lake Okechobee.

(7) All fish must be taken on a standard casting rod, trolling rod or fly rod and reel, using artificial lures only, except that pork or red mud may be used.

## RECONDITION YOUR FARM EQUIPMENT NOW!

During this slack season we are ready to give you immediate service on reconditioning your farm equipment. We use

Genuine International Parts

And assure you of satisfactory work. Look over your equipment today and get in touch with us. You'll be pleased with our work.

TALLAHASSEE, MAY 19—W. M. Taylor, state hotel commissioner, reported today that Palm Beach county has 126 houses, apartments and rooming houses, with a total of 16,230 available rooms.

He made the announcement on completion of a thorough check that they were licensed with the hotel commission for the current year.

The breakdown of the various types of places showed 281 licensed apartments in the county with 2,656 available rooms; 91 hotels with 1,681 rooms; and 508 rooming and rooming houses with a total of 355 rooms.

We compiled this information for the special use of chambers of commerce and other organizations interested in ascertaining exactly the number of facilities available for holding conventions, conferences and meetings. Commissioner Taylor said, "but the information is available here upon request to any person who asks for it."

Of Interest From South Bay Community

Announcements the last of the third in best dress. Betty Rawle week by County Agent M. U. second in remodeled dress. Margaret Mayes first on slip. Ruth Barlow third on cap and apron. Lucille Barnes second in house. Carl Gowdwin Brown third in house coat. Margaret Barlow first in school dress. Marguerite Perkins third on slip. Ruth Barlow second from here. Breen and Maxine Walker. Miss Ruth Aspinia took the group to town in the school bus. The Belle Glade delegates accompanying them.

Mr. and Mrs. P. W. (Dan) Mutchler, formerly of Lake Worth, now residing in Lake Worth, announce the birth of a daughter, Jacqueline Jane, on Wednesday, May 11.

The last regular session of the Parent-Teacher association, which was postponed last week, to permit members to accept an invitation to visit the Belle Glade organization, will be conducted on Monday, May 23, in the school auditorium. Officers will take place, Mrs. J. W. Raskley of Belle Glade, past president, acting as installation officer. Mrs. Aly requests all officers and chairman of standing committees to present written reports of their year activities and accomplishments at this session, which will then be turned over to the historian for incorporation in the procedure book.

Erndine Moore had charge of the devotion at the Lake Harbor Christian Endeavor this week. The topic for discussion was "Keeping Our Friendships Christ-Jan." Muriel Merriam, Polly Grant and Edna Henderson took part in the discussion. Others attending were Gladys Josephine Wood, Catherine McKay, Mrs. H. D. Merriam, Lewis Bolton, S. J. Wood, Myra Bishop, Dan Barnard, Glenn Reilly and Edward Brown.

Norma McCurdy, daughter of Mr. and Mrs. W. W. McCurdy, was honor guest at a party in honor of her twelfth birthday Saturday afternoon. Miss Allie Jones and Brooks assisted Mrs. McCurdy in the indoor games and in serving refreshments to the young people. The birthday cake with 12 candles was cut and served with punch. Barbara Breen, Quinon Walker, Elizabeth Brown, Janice Ann Alvarez, Helen Ratley, William and Charles Milton McCurdy, Amy Ann Hill and Mrs. W. P. Hill of Belle Glade.

Mr. Ernest A. Burkett, brothers Adolph and William Williams, and brother-in-law, Spright Jones of Lake Harbor were called to Georgiana, Ala., the last of the week. The death of their father, Marvin Williams, 59, of that city, Mr. Williams died on Friday, leaving 12 sons and daughters to mourn his death. A funeral service was conducted at the Methodist church Sunday and interment made at Wise's Chapel cemetery.

Andrew Christian, Loraine Henderson and Eleanor Ruth Ratley of the seventh grade, and Norma McCurdy, Ruth Barlow, Nina Kelly, Katherine McLeod, Rihly Hanson, Agnes Robertson and Quinon Walker of the sixth grade played the Junior High ball game in the gymnasium of the school on Thursday afternoon. The South Bay boys won from the visitors.

Overseas Highway  
Fete Set for July 4

TALLAHASSEE, May 20.—(FNS)—The celebration committee for the formal opening of the Overseas Highway have completed their plans for a three-day celebration to be held July 2, 3 and 4. Monday, the committee decided to make its celebration a week end affair, with a program of events for each day and night. Many unique and unusual phases of entertainment are planned, according to a statement made by John Costa, chairman of the committee. As soon as the complete program has been decided upon it will be announced to the public.

The committee is contemplating a historical pageant which will graphically picture the succession of historical events which have made Key West front page news since the days of Indian invasion and pirate forays. A housing committee is already at work preparing accommodations for the thousands of week end visitors who are expected to take advantage of this opportunity of driving their automobiles over the only seagoing highway in the world.

This unusual scenic highway follows a ridge of coral reefs from the mainland to Key West, and for nearly 100 miles the beautiful pastel-colored waters of the Atlantic ocean and the Gulf of Mexico stretch away beyond the horizon on either side. Schools of fish can be seen playing in the waters and giant ocean steamers plying the Gulf stream are easily visible from the highway.

Many cities are now planning motorades to Key West for the great Latin Festival which will herald the joining of the southernmost point of the United States with the mainland of Florida, and Key Westers are preparing to welcome them with true Latin hospitality.

Florida Trees Are  
Moved To Big Fair

DeLand, May 19.—Florida trees are on their way to the New York World's Fair of 1939. Already they are being moved from groves and gardens into great boxes where they will become acclimated to new soil conditions. Many of them have completed the first leg of their journey as far as DeLand to be taken care of by botanists on the staff of Florida National exhibits.

Foster Barnes and his crew of landscaping engineers are now in the Everglades hunting for tropical plants and flowers to transform the patio of the Florida National Exhibit, building into a tropical paradise.

More than 100 varieties of tropical trees and plants will be shown to the fifty million visitors at the World's Fair. Chief among them, all fruit trees which have good prospects of being used commercially, such as the papaya, the avocado, the mango and the guava.

Such curiosities as the sausage tree, the carambola, the sugar apple, the sapodilla, the akee, the rose apple, the monarda, the sapote and the skyway tree will be shown to northern visitors. Earl Brown, manager of the

state exhibit, is planning to move an entire orange grove to the exhibition grounds. Such groves at the Century of Progress in Chicago, and the Great Lakes Exposition in Cleveland brought many prospective grove owners to Florida.

First citrus tree to be moved to the New York Fair was a Lakeland lime from the grove of H. A. Nichols of Lake Alfred. Other trees have been taken from the Oklawaha, Blandford and Grand Island Nurseries.

Florida received nationwide publicity as a result of the recent senatorial campaign. "Life" "Newsweek" "Time" "The Commentator" and numerous other newspapers and magazines gave generous space to the contest.

Judge  
Elwyn Thomas

Fort Pierce  
CANDIDATE FOR

Justice  
of the  
Supreme  
Court

To Succeed  
Justice W. H. Ellis,  
Who Is Retiring From The  
Bench

Chief Justice Charles Evans Hughes of the United States Supreme Court said in a recent speech that more attention should be paid to the type of men selected for judicial offices in the United States.

In Judge Elwyn Thomas of Fort Pierce the Democratic voters of Florida have a chance to nominate a candidate for Supreme Court justice, who is preeminently qualified for that high office by temperament, experience and legal ability.

Palm Beach county voters owe it to themselves to go to the polls Tuesday and cast a ballot for Judge Thomas.
